Recommended Keyboards

Having a piano at home IS A MUST.

Tip A traditional piano cannot be beat. It is accurate, and although it has to be tuned, IT CAN ALWAYS BE FIXED. There is a long list of perks. Electric keyboards have plenty of perks, but please do not feel as if you must go with a keyboard.

If some of these selections are not for you, two other options include finding a local music store or Guitar Center. They can assist and you can physically see the difference. Also, Guitar Center has a better selection than Amazon, even for shipping.

The things you need with a keyboard:

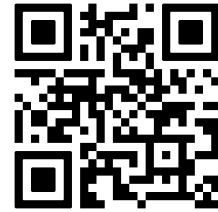

- Weighted Keys - 88 Keys - Stand, Pedal, and Music Stand - Speakers

Our current recommendations

- Cheapest option: THIS IS NOT THE BEST. This will work fine, but there are better options. We realize that spending over 200 dollars on a keyboard can be tricky, but if it is possible to save up, please do.

- Complete option: This keyboard with the stand has been sitting right at \$400. A quality keyboard WITH everything included is difficult to find, and this is it. Is it the top brand? It is not, but several students who have used this keyboard have loved it.

- Our option: This item has been at 400 dollars throughout the year. We consider it a steal if an elite brand has an item that is cheaper than the competitors. This does not come with the stand, but \$50 is well worth it considering the quality

All of our recommendations come between \$150 and \$500. If you are interested in a keyboard of better quality, feel free to reach out.

Keyboard Accessories

For Pedals and Sheet music stands, there is little difference in brands/quality. We have two generic ones, but feel free to choose something else if you'd like!

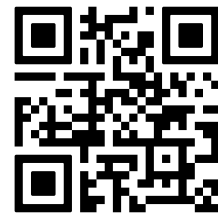

- Pedal

- Music Stand

For Stands, please look for one that is at least double-barred. Single-bar stands tend to be incredibly flimsy.

- Double-Barred Stand

WE DO NOT ADVISE USING ANY STICKERS ON THE KEYS OF A KEYBOARD

Notes that stick to keyboards are usually not necessary. If you do wish to invest in note letters on your keyboard, please purchase these...
